

ACLI 2018 ANNUAL CONFERENCE

Mandatory Continuing Legal Education is presently required in more than 40 states and may be mandated in several more during the next few years. The Council has obtained certification for attendance at this Annual Conference by some of those states with a mandatory CLE requirement. One of the prerequisites for approval as a sponsoring organization is the requirement that the sponsoring organization – the ACLI in this instance – submit to the State CLE Board a list of those who attended and are admitted to practice law in that state. In order to do so, we will need to know what states the attendees (students and teachers) have been admitted to practice and their **State Bar Identification Number**, if possible.

State of _____ State of _____

Name of Attendee _____ State Bar ID N° _____

Address _____

City _____ State _____ Zip Code _____

Number of Hours Completed _____

Below you will find a list of the states with which the ACLI has filed an application for CLE credit. However, since each state has different CLE requirements and calculates the credit differently, we strongly recommend that you contact your state CLE board with any questions.
