11 INDUSTRY RANKINGS

The U.S. life insurance industry in 2016 is made up of 797 companies with sales and operations across the country. Many of these companies are stand-alone entities, with no life insurer affiliate or subsidiary operating in the United States. Others are organized into groups or fleets of affiliates and subsidiaries. This chapter presents rankings of the 25 largest life insurance groups (counting stand-alone companies as a group of one) based on assets, premiums and annuity considerations, and life insurance coverage.
