

Tax Professional

The American Council of Life Insurers, a national trade association representing the life insurance industry, seeks a tax professional to join its team. This individual will provide expertise on life insurance company taxation and individual life and annuity taxation. Responsibilities include policy development and implementation, staffing assigned committees/task forces, providing technical support to staff and member companies, monitoring and analyzing legislative and regulatory proposals and policy trends affecting the industry, identifying and analyzing emerging issues, and assisting in the development of industry policy in their issue areas.

A degree in Law or Accounting with a concentration in tax preferred. At least twelve years of relevant experience is required. Thorough knowledge of tax law and knowledge and/or experience in life insurance industry or financial services is preferred. Strong analytical and oral and written communication skills required. Also requires ability to lead and participate in teams and help groups achieve consensus on technical and factual issues.

To apply, please email or fax your resume, references and salary requirement information to:
