

AMERICANS

# WORK HARD

AND DESERVE A **SECURE RETIREMENT.**

NOW IS THE TIME FOR CONGRESS TO ACT ON RETIREMENT SECURITY LEGISLATION.

The Family Savings Act represents an important first step toward enhancing America's retirement security system.

The bill would expand access to plans for millions of workers, provide key lifetime income protection for savers, and make it easier for employers to offer annuities in their retirement plans.

Adding a provision that would provide employees a complete picture of their future financial benefits would go one step further toward helping Americans ensure their savings last a lifetime.

Congress should not miss this once-in-a-generation opportunity to support workers, retirees, and business owners.

**TELL CONGRESS:**

PASS THE FAMILY SAVINGS ACT NOW.
