

ACLI URGES CONGRESS TO PASS COMPREHENSIVE RETIREMENT SECURITY LEGISLATION

The House of Representatives passed the [Family Savings Act](#) in September 2018 as an important first step toward enhancing America's retirement system. The bill expands access to retirement plans for millions of workers, provides lifetime income protection for savers, and makes it easier for employers to offer annuities in their plans. Congress can go even further to help Americans saving for retirement by adding additional provisions from the [Retirement Enhancement and Savings Act](#) to any final retirement package. This bipartisan, bicameral legislation includes a variety of long-supported provisions that can help enhance the employer-provided retirement system.

A STRONG RETIREMENT SECURITY PACKAGE WILL:

ENCOURAGE SMALL EMPLOYER PLAN COVERAGE

- Expand Multiple Employer Plans (MEPs). This provision expands retirement plan access by permitting employers not yet prepared to sponsor their own retirement plan to join together to achieve economies of scale and receive advantages with respect to plan administration. Sens. Susan Collins (R-ME) and Bill Nelson (D-FL) sponsored a bill on this topic in the Senate and Reps. Kind and Vern Buchanan (R-FL) have led efforts in the House.
- Provide a Small Employer Plan Start-Up Credit. This provision would encourage small employers to establish a plan by providing them with up to a \$5,000 credit toward start-up costs. Legislation on this provision has been sponsored by Reps. Kind and Dave Reichert (R-WA).

ENCOURAGE WORKER PARTICIPATION AND EDUCATION

- Facilitate Auto-enrollment Enhancements. This provision removes the 10% cap on automatic employee contribution rate increases, allowing employees to automatically save more for retirement on a yearly basis. Employees can always opt-out. Furthermore, employers can take up to a \$1,500 credit to add auto-enrollment to a new or existing plan. This provision is included in bills sponsored by Sens. Collins and Nelson and Rep. Richard Neal (D-MA).
- Facilitate Lifetime Income Disclosure. This provision will help participants better understand their retirement savings by providing an illustration of how their savings account balance translates into monthly lifetime income in retirement, similar to the illustration included in the federal Thrift Savings Plan. It also provides employers greater certainty in offering plan participants the option to elect to take a portion of their retirement savings in the form of an annuity. Sens. Johnny Isakson (R-GA) and Chris Murphy (D-CT) have sponsored a bill on this topic in the Senate and Reps. Luke Messer (R-IN) and Mark Pocan (D-WI) have led efforts in the House.

ASSIST WORKERS IN SECURING THEIR RETIREMENT SAVINGS OVER THEIR LIFETIME

- Improve Upon the Current Annuity Selection Safe Harbor. This provision will provide clear guidance to employers on how to satisfy their duty to consider an insurer's financial capability when selecting an insurer to provide annuities to plan participants. The provision allows employers to rely upon specific representations from insurers regarding their status in relation to state insurance regulation and enforcement. Reps. Tim Walberg (R-MI) and Lisa Blunt Rochester (D-DE) have sponsored legislation to advance this effort.
- Provide Lifetime Income Portability. To continue lifetime income protections in the event of a sponsor-initiated change, this legislation permits participants to roll over lifetime income options to an IRA that provides the same or similar lifetime income protection. Legislation on this topic has been sponsored by Reps. Neal and Mike Bishop (R-MI).

ACLI POSITION

Now is the time to enact comprehensive retirement security legislation. These components are extremely timely and necessary - every day between now and the year 2030, 10,000 Americans will reach age 65, and many of these retirees will live another 20-30 years in retirement. ACLI strongly encourages Congress to take advantage of this once-in-a-generation opportunity and pass comprehensive retirement security legislation this year to ensure as much access to retirement products for as many people as possible.
