

We are seeking an experienced Actuary to provide actuarial expertise and advice in assigned areas of life insurance financial regulation. This role involves working with cross-functional teams of internal and external subject matter experts, lobbyists, and other professionals. The successful candidate will facilitate the development of committee positions and recommendations for ACLI policy on legislative and regulatory matters. Additionally, they will assist in planning, coordinating, and implementing ACLI lobbying efforts before the NAIC and state legislatures, providing similar support to member companies.

The ideal candidate should possess extensive subject matter knowledge in financial reporting and experience working with regulators. They should have strong analytical skills to evaluate proposed legislative and regulatory changes that might impact the industry. Effective communication skills are essential for defining and refining issues into manageable forms and transforming them into accurate and persuasive written documents and presentations. Additionally, the ability to establish and maintain good working relationships is crucial. Bachelor's degree in mathematics, finance, accounting or related field required. At a minimum, should be an Associate of the Society of Actuaries or member of the American Academy of Actuaries. A Fellow of the Society of Actuaries is preferred. A minimum of seven to ten years of actuarial experience, with a preference for previous experience working with regulators and/or a background as a consultant. Background in financial reporting, statutory valuation, risk-based capital issues and/or reinsurance is desirable.

Salary range: \$180,000-\$250,000

The ACLI offers a competitive compensation and benefits package. Interested candidates should email their resume to: [HR@acli.com](mailto:HR@acli.com), ATTN: HR – Actuary
